ABOUT ME

Fueled by a deep enthusiasm for technology and innovation, I am a software engineering student keen to apply my academic knowledge to real-world challenges. I approach tasks with both creativity and discipline, aiming to craft impactful digital solutions. Eager to gain hands-on experience, I'm ready to bring my skills in front-end development and problem-solving to new opportunities.

ACHIEVEMENTS

[Industrial Hackathon Winner](#)

[Internal Hackathon Winner](#)

PROJECTS

[Shivner Pratishthan](#)

Developed an NGO management website and Mobile App using React.js, Express.js, Node.js, and MongoDB and ReactNative, featuring Razorpay donations, event management, and user engagement tools.

[CityScan](#)

Developed a Flutter-based edge AI application for real-time detection of potholes, cracks, and pipeline defects using YOLOv8, featuring live scanning, severity assessment, geotagged reporting, and offline inference.

[DataViz](#)

DataViz is a web-based data visualization platform that allows users to upload datasets and instantly generate interactive charts and visual insights. It transforms complex raw data into clear, dynamic visuals through an intuitive interface.

[Fitness App Development](#)

Developed a Flutter-based fitness app with an intuitive UI, real-time progress tracking via Firebase, personalized fitness plans, and workout logging with detailed progress graphs, enhancing user engagement.

EXPERIENCE

2024-2024

Jinshaashan Info LLP

Intern

My internship at Jinshaashan Info LLP, under Mr. Vikram's guidance, provided hands-on experience in mobile app development, web content creation, and data collection. I contributed to a Fitness App, implementing email verification and real-time databases using Flutter and Firebase. This experience strengthened my technical skills, teamwork, and time management.

SKILLS

- HTML
- CSS
- React
- Tailwind CSS
- React native
- Flutter
- Javascript
- DSA

EDUCATION

Omkar International School

Secondary Education
(2010-2022)

Vidyalankar Polytechnic

Diploma in Computer Engineering
(2023- 2025)

Amity University

B.TECH in Computer Engineering
(2025- Present)
